

### ...Low Freight Rates...

No matter how many plants are in your order our postal charge is the same low rate for the whole order. **Qld & NSW - \$17.00, Vic - \$20.00, S.A - \$24.00, NT& Tas \$45,WA \$49** (Includes Quarantine Inspection Costs). \*Please note: **The post & packing charge is for the whole order not each plant.** Unless specified plants are sent in long pots 70mm wide. Our plants are specially treated to ensure they travel well and in remote areas are able to travel up to two weeks without ill effects. Our unique packaging method has been giving great results for 31 years. You can either plant them straight into the garden, hold them in their pots or repot them with the pots of your choice. Plants that grow in full sun have been hardened to full sun conditions. **KEY:** 1.0m Typical Height of Plant in Cultivation ie one metre, V = Vine.\*Fragrant \*\* Native To Australia, Rf Rain-forest Plant, Ed Edible. F Frost Resistant, Fm Moderately Frost Resistant. Suited to: A Mild Climates from Hervey Bay (+Nth Qld Tablelands) South to Wollongong, Sth Aust & WA. B Inland / Hot&Dry, C Cool Areas/ Tablelands, cool parts Tas&Vic, D Tropics, E Seaside Planting-Salt Spray. If we use a small a,b,c, or d indicates not known by us but worth a try with extra care and placement. Often our customers give feedback on these. In addition every climate has different microclimates and every backyard has its own microclimates with various degrees of protection against the elements. Microclimates can be created that allow one gardener to grow plants that the neighbour can only dream about.

**Tas Orders** will be sent on the Following day:  
**Friday 21st May and Western Australian & NT Orders on Monday 24th May.** We need your order by 3.00pm aest  
**Friday 14th May (Tas) and Monday 17th May (WA & NT)** as we go through an intricate Quarantine Approval & Inspection process & need to do this in one batch to make the process feasible. Air Delivery surcharge is 10% added on to your total order. We send Toll Air Priority. **No PO Boxes**

enough. There are evapotranspirants that protect plants from frost. We have one here called.....Plants can be also be protected from frost on a daily basis by spraying with sprinklers before the sun rises or using large fans to move the cold air away. **Wet & Cold.** Tropical & sub-tropical plants hate being soggy wet in the soil/potting mix and cold at the same time. Use a well drained potting mix with added coarse material...this is more well drained than most of the TV plant gurus know about. Do not let your tropical plants get soggy wet and cold.

## FOCUS On Preparing Your Plants For Winter

Autumn is still great growing weather right through to late June... many plants adore this time. But here a few things to keep in mind to prepare your plants for the colder winter months.

**Cold sensitive plants** Put them in a warm place under cover, against a wall that reflects the winter sun. Give them as much winter sun as possible. Place away from wind exposure.

**Indoor Plants** In nature of course there is no such plant. If the plant is sub-tropical or tropical in origin it will like humidity. So try and create humidity near the plant by sitting above but not in water in a saucer...separate the two with some pebbles. Heaters take humidity out of the air. Rotate plants outside into winter sun for 2-3 weeks. Be aware that reflection off white concrete could burn your plant.

**Fertiliser.** If you have not already fertilised this year give some slow release fertiliser now so the plant will have something to utilise straight away in spring which is now only 3 months away! There will not be much fertiliser uptake in winter but your plants will think winter is spring if you give them vermicaste...see below. Now is also a good time to apply fish and kelp fertilisers....although low in NPK nutrient, they act as a food for the beneficial plant microbes in vermicaste. **Vermicaste** You can use vermicaste right through winter and your plants will think its spring already!! Its because vermicaste has billions of beneficial plant microbes. Just turn it into a liquid by adding water...fill a 20 litre bucket with a handful of vermicaste add a couple of capfuls of fish/kelp for food and spray it on your plants with a weed&feed container or similar. See our video on this....also our Tip of the Week

**Frost** if you need to protect your plants from frost there are some options but if your plant is not frost resistant it will always be in danger. Once you know where frost hits hard you can not put plants in that area..Physical protection can be placement under eaves near buildings, under trees or putting a physical cover over the plant. Larger plants may need to be protected in this way until they grow above the frost zone. Ground frosts are measured below 0oC at ground level. Normal air temperatures are taken at 1.25m and if below 0oC are called an AirFrost. The air at 1.25m can be 5oC warmer than at ground level. So the higher your plant is off the ground the warmer the air is but it still can be frosted if its cold

### GRAND BALSAM

(1mAbcD) **Impatiens grandis.** A spectacular and unusual rare Impatiens with big gorgeous 5cm orchid like white hooded flowers with ornate red splashes. Lovely small light green rounded foliage and contrast-ing red stems. This is an upright plant which you can shape as you like. Keep out of the frost. From India and Sri Lanka. Morning sun through to heavy shade. Sent in 75mm diameter pots.

...Priced at \$9.90 (200 Parries) ea or 3 for \$25

### PITCAIRNIA SANGUINEA

(1mAbcD) **Pitcairnia sanguinea.** An unusual sought after bromeliad. Will add permanent colour to dim spots around your home and garden. It has long broad soft velvety bright green leaves with a brilliant red underside that is so visually apparent that it is a feature. It has an eye-catching very long bright red flower. From Columbia it likes humidity and moisture. Takes shade and moist conditions. Sent in 75mm diameter pots. Priced at \$12.90 (250 Parries) ea or 3 for \$25

**PARALLEL PEPEROMIA**

(45cmAbCD) *Peperomia puteolata*

An unique peperomia that stands out among the others of the same species.

Whorls green and white striped leaves

on a striking red stem. The arrangement gives this peperomia a very elegant look. Upright grower and an indoor plant. Can survive outside in sheltered areas. Benefits from light pruning. Keep soil moist. Native to south America. Part shade.

.....Priced at \$12.90 each

**TWO WONDER WEEPERS**

...Rare Pink Flowering Goldfish Plant...

**Nematanthus monanthos**

(15-10cm AbcD) Unusual bright pink fuzzy

goldfish shaped flowers radiating from a glossy deep green textured

foliage. The flower blooms in spring to summer and even in winter! Native to Brazil. Requires filtered light and very good indoors. A rarely available fibrous rooted Gesneriad. Takes morning sun.

....Priced at \$12.90 each (200 Parries)

**PHILODENDRON**

**PRINCE OF ORANGE**

Enjoy this fabulously foliaged indoor plant.

Prince of Orange in particular is quite an standout plant with its orange pointed

foliage against its green background. This is an ideal landscaping plant due to it's compact growth and can be grouped together. And is also excellent as an indoor plant! Let it dry out a little between waterings. Bright indirect light. Sent in 75mm diameter pots.

.....Priced at \$15.90 each.

**LIPSTICK PLANT**

*Aeschynanthus radicans* is a lovely hanging

Lipstick with big red tubular flowers emerging from dark maroon

buds, resembling lipsticks. Flowering in summer this is the most spectacular of all the Lipsticks. Great indoor plant and good in a hanging basket. Bright indirect light.

.....Priced at \$9.90 each (200 Parries)

## UNUSUAL PLANTS APRIL-MAY SYNGONIUM COLLECTION OF 2

(30cmAbcd) **Syngonium podophyllum**  
Tough indoors and will survive drying right out, in fact it seems to thrive on it - in addition it will also grow in water!! This would have to be the hardest of all indoor plants. From Tropical America. We have 2 gorgeous additions.

### Tropicana

Heart shaped gorgeous creamy green with red veins.

### Red Queen

Pointed leaves. Lovely complete coverage of soft dusky red. These form aerial roots and will climb a totem or trail from a basket and if you want compact growth just tip prune. Very attractive indoors or in the garden. Syngoniums need warm conditions. Shade. Sent in 75mm pots.

.....Priced at \$12.90 each or Both for \$23

...Makes A Great Office Plant!...

## ZANZIBAR GEM

(60cmAbd) **Zamioculcas zamiifolia**

Due to its small size & attractive foliage, its air purifying ability and low light & water requirement makes *Zamioculcas zamiifolia* a great indoor plant, especially in your office areas! It's glossy green foliage helps bring colour indoors of your home or work office. Flowers usually around mid summer, the flower is a yellow to bronze spadix with a green spathe. Can go a long time without water. Avoid overwatering. Part shade.....Priced at \$14.90 each(250 Parries)

## PHILIPPINE ORCHID

(40cmAbcd) **Spathoglottis plicata**  
'Lemon Kiss' is a spectacular ground orchid, giving you eye-catching

30mm lemon flowers, in spring and summer, above its attractive

pleated foliage. These are fast growers and the 5cm pseudobulbs will multiply for you. Because of their fast growth remember to keep up their nutrient supply. Good indoors or outside in frost free areas. Go dormant in winter but will bounce back in spring. From moist areas of the Philippines to India and Tonga. They grow best in light shade and require good light to flower at their best. In 100mm pots.

.....Priced at \$15.90 each (300 Parries)

...Huge Spectacular Bromeliad!...

## ALCANTAREA REGINA

(1mABCD) This is an amazing Bromeliad with spectacular bright red and yellow flowers that grow over 1m tall! The rosette that can grow to 1.5 m across! It stays smaller in a pot.

Will grow and flower in light to medium shade. It can be grown in a pot in a well drained mix and will multiply. Good indoors but likes humidity. South American in origin most Bromeliads are epiphytes that attach themselves to trees. Very hard to get.

.....Priced at \$14.90 each (300 Parries)

**AGAVE**

**VICTORIAE-REGINAE**

(40cmABCD) This is a striking dark green cactus with edges marked in white. Sharp spines on its extremities.

Highly symmetrical & upright this a well sculptured specimen Cactus from Mexico with its thick leaves rosetting from its base. There are seven forms of this species. Sent in 100mm pots.

.....Priced at \$9.90 (200 Parries) each

**AGAVE GEMINIFLORA**

(60cmFABCD) The spikes get attractive white flakes on the edges. A hardy upright, rounded rosette of narrow dark green leaves. A matured plant will reach around

60cm in height and 60cm in width. A narrow flower spike 4 metres tall with greenish flowers near the base that are flushed with red and purple. Brilliant as a pot specimen. Full sun to part shade frost & drought tolerant.

....Priced at \$7.90 each (200 Parries) or 3 for \$15.90

...Flower on Every one or two Leaf Axils...

**WHITE VARIEGATED COLUMNEA**

(40cmAbcD) **Columnea hirta** Variegated Unusual upright white variegated columnea with a big bright orange tubular flower on every one or two leaf axils! What a floriferous sight in late winter against its white background. Attractive upright succulent foliage. Columneas are epiphytic plants from South America. They like warm conditions and good light under shade. This one is more cold hardy. Morning sun is fine. They are mostly grown as basket plants and this upright one is fine in a pot growing to 40cm. Sent in 75mmpots.

....Priced at \$12.90 (300 Parries)

**LIPSTICK PALM**

(5mD) **Cyrtostachys renda**

Everyone wants it when they see it in Nth QLD!!! Beautiful small slender clumping Palm with eye-catching red crownshaft and leaf stalks.

Lovely bright green fronds. Native to Malaysia. Otherwise you need a heated sunroom or glasshouse. These are small, 3 leaf plants in 7mm pots, 150mm tall. These palms like warmth and moisture. For tropical areas only. Anywhere else heated conditions or continually warm sunroom. These are 4 leaf plants 35cm tall in 75mm pots. ...Priced at \$17.90 each

**Rated Ten Times More Generous than the Credit Card Rewards Programs !**

**Paradise Bonus Rewards System -**

Each order we send out will have a voucher with bonus points (Parries) awarded. The bonus points will be on the basis of:

10 Points (Parries) for every \$10.00 of purchases. Most plants we advertise in the main part of our catalogue will have its **Parry value to purchase** listed in brackets after the price. When you wish to use your Parries just send in your vouchers or fax or phone them. Remember the bonus point vouchers are dated and have an expiry on them and **once expired they are invalid**. The bonus points are known as 'Parries'. The Parries must accompany an order valued at \$20 or more. If the plant costs less than the Parries you hold we will send back change in Parries. Parries are not exchangeable for cash **nor deducted from an order** & are not transferable to another person. Simply choose your plant.

**Paradise Stock Plants**

We are holding stocks of the following plants at the moment. Availability is subject to orders. Descriptions can be found in past catalogues marked in brackets. Symbols are described in back page Key. Flower colour and time are abbreviated after brackets.

## APRIL-MAY PATIO COLLECTION

### CANTERBURY BELLS

(2mAbcD) *Gloxinia perennis*

Showy bell shaped creamy pink flowers. The flowers have a mint like scent, blooming from summer to autumn.

Large fuzzy dark green leaves with serrated edges, growing on an upright stem from an underground scaly rhizome. Native to South America. This is quite a robust plant, perfect for rockeries, water banks and tropical gardens. Moist soil. Prefers to be in a humid and shady or filtered sunlit spot. Sent in 75mm pots.

.....Priced at \$9.90 each

### BRAZIL ZEBRA PLANT

(40cmAbcD) *Calathea zebrina*

*syn. Maranta zebrina.* A foliage plant with deep

green velvet leaves, marked with bold stripes along

the veins. The spring flowers appear in a cluster in chocolate brown bracts. Likes warmth and humidity. Makes a nice house plant or garden plant in sub-tropics or warmer areas. Filtered light. Sent in 75mm pots.

..Priced at \$9.90 (150 Parries) or 3 for \$25

**Get Both for \$17.90**

## BURDEKIN PLUM

(8m\*\*ABCD) *Pleiogynum timorense* is a lovely native tree with edible purple plum like fruits about 4cm across.

Very attractive with red new growth, rough bark and a dense crown ...making it a great shade tree. This amazing small tree is highly suited to planting in the dry inland and also cool areas. They withstand frost by becoming deciduous in winter. Burdekin Plum comes from Gympie and Central QLD in dry and subtropical rainforest. Full sun or light shade.

.....Priced at \$9.90 (180 Parries) or 3 for \$25

...Lovely Two Tone Doubles...

## HIBISCUS MRS ANDREASON

(3mAbcD) Big salmon double flowers with pink dapples.

Flowers through the warm months. Keep it pruned back to about 1.5m.

Hibiscus like it warm sunny & frost free. This is one of the nicest Hibiscus flowers. Full sun.

.....Priced at \$8.90 each (180 Parries) or 3 for \$21

**Did you know** you can subscribe on our website at [www.rareplants.net.au](http://www.rareplants.net.au) to receive our Latest Free Online Catalogues

## JAPANESE MAPLE

(4mABCm) *Acer palmatum* This is a gorgeous ornate plant turning gold, orange and red before winter when it finally drops its leaves for a couple of months.

Interesting star like maple type leaves. Great for rockeries pots and Japanese style gardens. For all areas except tropical.

....Priced at \$8.90 (150 Parries) or 3 for \$23

## YOUR HOME GARDEN YOUR PARADISE

## WHITE FRINGE FLOWER

(2m\*ABCD) *Loropetalum chinense* 'white' will present you with absolutely masses of fragrant cream blooms with unusual strap like petals in spring. Its unusual very dark woody stem and tidily arranged horizontal branches contrast with the lightly coloured leaves and flowers giving it a graceful oriental look. No wonder it is a native of China and Japan. Likes a lightly shaded position. Also a lovely tub plant. Suited to all areas. Sent in 70mm pots

.....Priced at \$8.90(150 Parries) or 3 for \$25

## FABULOUS ORCHIDS

### *Dendrochillum tenellum*

Rare species from the Philippines, with clumps of needle type leaves which produce very fine spikes of white flowers in the late winter, rapidly forms a specimen. Grow moist at all times.

These plants are flowering size in 80mm pots

.....Priced at \$27 each

### *Oncidium Sharry Baby 'Sweet Fragrance'*

Tall branching spikes of highly vanilla perfumed flowers approx. 20mm in size, red and white in colour. These plants are 120mm tall in 50mm pots.

.....Priced at \$15.90 each

### African Violet Hybrids Minis Named Varieties

Optimara Rose Quartz

**Tell us what you have and we will get you different ones.**

**Priced at \$9.90 each or Both African Violets for \$18.90**

## FERNS

### CLIFF BRAKE FERN

(90cmABCD) *Pellaea ovata* Very unusual fern with a unique characteristic feature of having zig zagged rachis with a green ovoid leaf coming off each turn. Native to Texas and Mexico. Found on dry ledges or at the base of cliffs in the wild. Partial shade to full shade.

....Priced at \$12.90 each (200 Parries)

### SILVER HARE'S FOOT FERN

(1mABCD) (Syn Rabbits Foot Fern) *Davallia humata tyermanni*. The Silver Haresfoot with bright carrot like foliage and silver haired rhizomes. Handsome fine foliated fern

which develops an unusual strong haired rhizome, looking like a haresfoot. It is found on rocks or trees in rainforest or protected areas of open forest. Filtered Light. Sent in 100mm pots.

.....Priced at \$12.90 each (200 Parries)

### CORAL FERN

(45cmABCD) *Thelypteris patens lepida*. This is a small graceful fern with light green arching lacy fronds to 45cm long. Easily grown in a moist protected position. Suitable for pots, baskets and rockeries. These are sent in 100mm pots.

...Priced at \$12.90 each (200 Parries)

**..THESE THREE FERNS FOR \$35**

**WHITE BANKSIA ROSE**  
(Climber) *Rosa banksiae* 'Alba'  
Fragrant white rose flowers 3cm wide which are carried right along the Length of the stem. Can be pruned as a shrub, used as a groundcover or let it go as a vigorous climber. Hardy plant and needs little attention. Suited

to climates from the coldest right through to subtropical. Not subject to black spot to any degree. Full sun in a well drained position.

....Priced at \$8.90 (150 Parries) or 3 for \$23

**Nematanthus 'Tropicana'**

(15-10cm) Extra long flowering variety. Orange goldfish shaped flowers with red stripes. These unique flowers radiate from a glossy deep green textured foliage. The flower blooms in late autumn and winter. Requires filtered light and very good indoors. Takes morning sun

.....Priced at \$12.90 ea(200Parries), 3 for \$29

**DIEFFENBACHIA SEGUINE CAMILLE** (1m) is a dramatic indoor plant that will give you many hours of admiration of its soft green and cream variegations. Large tropical looking leaves. Likes humid conditions in strong filtered light. Outside it needs a warm protected situation and can be grown as a house plant. Part shade.

.....Priced at \$12.90 each (200 Parries)

**BAMBINO ELEPHANT EAR** (30cm) *Alocasia cucullata* 'Bambino'

Cutest plant ever this mini amazonica is flush with striking white markings on a very dark shiny pointed leaf. Growing to about 30 cm on a stout branching stem. Will go back in cooler winter areas but comes back better than ever. Loves shade and part shade. Good indoors...Priced at \$12.90 each (200 Parries)

**AGLAONEMA 'SNOW WHITE'** (1mAD) Nicely marked succulent looking foliage with white stripes.

Aglaonemas are soothing foliage plants that are great under dull light conditions. Great in a pot inside or out or in a subtropical garden. ....Priced at \$9.90 (180 Parries)

**MOUNT SPURGEON BLACK PINE** (10m) *Prumnopitys ladei* has unique flattened dark foliage which presents itself in flat layers to you. It always attracts peoples attention. This is a proven indoor plant that adapts well to dark and cooler conditions. These are more an heirloom piece with its rarity in nature its slow growing disposition and longevity. Grows beautifully in a pot and eventually larger pot and their growth is held back under these conditions. Fleshy blue fruit at any time of year. This is a rare species from highland country of NE Qld. Shade.

.....Priced at \$12.90 each or 3 for \$33

**AMAZON LILY** (60cmAbcD) *Eucharis x grandiflora* is a magnificent flowering Lily with sweet smelling white flowers which resemble velvety snow white daffodils with light lime green markings. They can flower several times in spring and summer. The attractive basal 20cm leaves are dark thick

and paddleshaped. The Amazon Lily will multiply and makes a luxuriant pot or garden specimen. Keep in a pot if winter temperatures ever fall below zero degrees Celcius when it may go dormant. Natural hybrid from Colombia South America they like warm conditions. Part to full shade.

...Priced at \$12.90 (200 Parries) or 3 for \$33

**SACRED PALM** (3mAD) *Areca guppyana*. Extremely attractive Palm with huge drooping fronds, especially compared with its slender ringed green trunk with stilt roots. Bright red clusters of fruit. This is a small solitary palm to 3m tall. Fragrant light coloured flowers and red fruits. Suited to pot culture. Native to the New Guinea and the Solomon Islands, this one is for the subtropics and tropics, although it does well indoors and is very dainty in a pot. Prefers shade in a protected position.

.....Priced at \$9.90 each (180 Parries) or 3 for \$27

**ELKHORN FERN** (50cm) *Platycerium veitchii* Hybrid of the native Silver Elk of Nth Qld. has fronds that appear to be covered with a thick grey felt. The fertile fronds are mostly erect while the shield fronds display finger-like projections when grown in bright light. Can be mounted on a plaque or on a tree for a more natural growth pattern. Easy to grow in a protected garden in good light & morning sun...not heavy shade. Liquid fertilise often. Very drought & frost resistant. Don't overwater! Sent in 75mm pots. ....Priced at \$12.90 each (200Parries)

**DWARF TIBOUCHINA JAZZIE**

(1mABcD) Beautiful rich purple flowers will be all yours in autumn and winter. This is an attractive colourful dwarf evergreen shrub with medium sized velvety leaves. **Most of our plants are sent in the 70 -75mm Diameter pots they are grown in. Usually 20cm+ tall. Ferns are sent in their 100mm pots.**

## NEWSLETTER APRIL-MAY 2021

Welcome to your April-May Catalogue. What a great time for admiring nature with the cooler weather. Good time to do more projects outside and laughing at those battling weeds as well.

As the weather cools before spring we are going to present you with with a surprising array of plants so tighten your seatbelts. ...From Bob & Bev Chalmers

.....A Smile is the beginning of Peace. ...Mother Teresa

### DID YOU KNOW

\* Coming into winter you will some plants are deciduous no matter what the climate and some are deciduous depending on the climate. These are often called semi-deciduous but depending how cold it gets the plant will decide how much leaf to shed.

\* Deciduous plants hate getting wet in winter when they have no leaf to suck up the moisture. This leads to root rot or another fungal rot in the case of bulbs.

\* Its a good idea to let your deciduous plants dry out between watering in winter and then only apply enough moisture to keep 'just moist'.

### THE REASONS WHY NATURAL PLANTS .....ARE NOT PROMOTED AS DISEASE CURES

We all know the medical people can cure everything with their medicines....the cure of cancer related illnesses is close to 100%.....or is it closer to 50% over the long term ...look it up for yourself.

The reason that natural plants cannot be promoted (actually illegal!!) is that their is no human research trials to back up any claim. There is in many cases thousands of years of anecdotal evidence but no modern day human research.

The reason there is no modern research is that you cannot patent a natural cure! So to make a profit from the very high expense of human research drug companies must isolate the active ingredient of the plant and turn it into a drug that is only accepted after million dollar trials prove its efficacy.

If you do a search on Gynura procumbens...which we sell as Diabetes Plant or Plant of Longevity in Asia....you will see multitudes of scientific research papers on this plant because of its reputation for several diseases. Active ingredients have been determined and pathways but so far we dont know if a drug is actually in the making.

In any case the natural plant may be better for you than any future drug but who knows.

The fact is that the treasure trove of herbal plants on earth is the basis for most of our medicines.

**There are many plants which have a reputation for killing cancer cells.**

As technology and western society takes us further and further from nature and getting our hands dirty its a good time to get back into natural things because this is where the real you will be happiest. Our species has not evolved over millions of years to suddenly be something different over the last 50 years! Keep it simple and surround yourself with plants. This is one of the bases for Happiness.

**PS Get the Happy Vibe and You can Have Everything you Desire**

**TRUE LIES** One of our customers emailed after he arrived at the Pearly Gates. He had to wait to be admitted, while St. Peter leafed through his Big Book. He was checking to see if our friend was worthy of entry or not. Saint Peter goes through the book several times, furrows his brow, and said, "You know, I can't see that you did lots of good in your life but, you never did anything bad either. Tell you what, if you can tell me of one REALLY good deed that you did in your life, you're in."

Our customer thought for a moment and says, "Well, there was this one time when I was drivin' down the highway and I saw a Biker Gang assaulting this poor girl. I slowed down my car to see what was going on, and sure enough, that's what they were doing. There were about 50 of 'em torturing this young lady.

Infuriated, I got out my car, grabbed a tyre lever from the boot and walked straight up to the leader of the gang. He was a huge guy with a studded leather jacket and a chain running from his nose to his ear. As I walked up to the leader, the gang formed a circle all around me.

So I ripped the leader's chain off his face and smashed him over the head with the tyre lever. Then I turned around and yelled to the rest of them, 'Leave this poor, innocent girl alone, you slime! You're all a bunch of sick, deranged animals! Go home before I teach you all a lesson in pain!'"

St. Peter, extremely impressed, says, "Really? Wow, when did all this happen?" "Er.. about two minutes ago."

### African Violets....Minis.....Cuteness is the Word

At the moment the supply of African Violets is being outstripped by demand. We have been making named varieties available for a long time and these have always been hard to get. They are selling out fast at the moment so please be patient it wont always be like this.

**This Catalogue and next we will be doing the Mini African Violets.**

In our opinion the Mini Violets are at least as eye-catching as the regular Violets. Very compact flowers and more of them!! The plant has tiny leaves and the whole plant is very compact. Cuteness is the word.

### CONCIERGE QUARANTINE SERVICE

Plants cannot simply be sent into Western Australia, Northern Territory or Tasmania without satisfying the protocols of the particular Depts of Agriculture.

We have been providing a Concierge/Quarantine Service for Interstate Plants for a couple of years now.

Clients from Western Australia, Northern Territory or Tasmania who want specific plants we do not have here... simply get those plants sent to us and we repot and label them, hold them till our next 3 weekly send out date, treat them with insecticides and fungicides as required, do all the necessary paperwork and then repackage and send out Courier by Air Express. This is an expensive process when you add in the freight and government fees. If you require further information go to our Concierge Hub on our website. Its all there. [www.rareplants.net.au](http://www.rareplants.net.au)
