

...Low Freight Rates...

No matter how many plants are in your order our postal charge is the same low rate for the whole order. **Qld & NSW - \$17.00, Vic - \$20.00, S.A - \$24.00, WA & Tas - \$49.00, NT - \$52** (Includes Quarantine Inspection Costs). ***Please note: The post & packing charge is for the whole order not each plant.** Unless specified plants are sent in long pots 70mm wide. Our plants are specially treated to ensure they travel well and in remote areas are able to travel up to two weeks without ill effects. Our unique packaging method has been giving great results for 31 years. You can either plant them straight into the garden, hold them in their pots or replot them with the pots of your choice. Plants that grow in full sun have been hardened to full sun conditions. **KEY:** 1.0m Typical Height of Plant in Cultivation ie one metre, V = Vine. *Fragrant ** Native To Australia, Rf Rain-forest Plant, Ed Edible, F Frost Resistant, Fm Moderately Frost Resistant. Suited to: A Mild Climates from Hervey Bay (+Nth Qld Tablelands) South to Wollongong, Sth Aust & WA. B Inland / Hot&Dry, C Cool Areas/ Tablelands, cool parts Tas&Vic, D Tropics, E Seaside Planting-Salt Spray. If we use a small a,b,c, or d indicates not known by us but worth a try with extra care and placement. Often our customers give feedback on these. In addition every climate has different microclimates and every backyard has its own microclimates with various degrees of protection against the elements. Microclimates can be created that allow one gardener to grow plants that the neighbour can only dream about.

Tas Orders will be sent on the Following day:
Friday 16th December and Western Australian & NT Orders on Friday 16th December. We need your order by 2.00pm AEST **Thursday 8th December** as we go through an intricate Quarantine Approval & Inspection process & need to do this in one batch to make the process feasible. Air Delivery surcharge is 15% added on to your total order. We send Toll Air Priority. **No PO Boxes**

Potting Mix Use a well drained potting mix that will still hold moisture without saturation. Coco peat with 20% perlite is OK.

Fertiliser Add one quarter strength liquid fertiliser to the water reservoir. Use a high Potassium bloom booster. This will give great growth and flowering.

WE HAVE NEW NAMED VIOLETS EVERY MONTH ON PAGE 7

FOCUS ON AFRICAN VIOLETS

African Violets are just about everyone's cup of tea. Fit them anywhere, cute and free flowering. And so easy to handle.

The African Violet is native to Tanzania and Kenya. They are one of the world's most popular house plants.

The botanical name is Saintpaulia ionantha and there are many many hybrids. The Saintpaulia genus has 9 species of which ionantha is one. They belong to the Family Gesneriaceae.

The velvety flowers have lots of colour variations and can be single, semi or full doubles. The flowers can be frilled on the edges and can also have a white trim.

Custom African Violets are associated with Motherhood, Mothers Day, Valentines Day and Easter.

Multiplication Violets will grow from a 'leaf & stem' cutting. One way is to hang/suspend the leafed stem into a water container with the stem about 2cm into the water. Wait about 2-3 weeks and roots will appear. You can then plant it into a 50mm pot. African Violets can also be reproduced by leaf cuttings and by division.

Flowering You need good light with enough brightness to cast a shadow. Within 400mm of a window sill is usually fine. Use a blossom booster type fertiliser. ...these have high potassium (K) and low Nitrogen (N).

African Violet Care Keep them out of full sun but in good light...enough to throw a shadow. Do not top water in the evening as they do not like having wet foliage at night allowing powdery mildew to flourish. They like a warm protected position. If an area is suitable for ferns it is also suitable for African Violets.

Watering with a Wick

This best way to water is by getting a 10cm piece of common acrylic wool. As you replot the violet put the wick thru a hole in the bottom of the pot and place 3-4cm of the wick into the bottom 3cm of the pot with a little potting mix in it and then twirl it around once horizontally on the mix. Pot the plant onto the wick and top up the mix. Run the string into your water reservoir eg like a small glass.

Enemies ...Powdery Mildew, Spider Mite, Soil Mealy Bug. No problem if you use the wick system.

....Rare Specy Native....

GLORY VINE

(2m or V*, **RfAD) **Faradaya splendida** is a glorious native plant from the rainforests of Queensland.

It has spectacular white fragrant spring flowers, 5cm across and big light green heart shaped

leaves. Normally a woody climber in the tropics, in the subtropics it will grow more as a spectacular lawn shrub. Faradaya has unusual edible (to birds) fruit that resembles brand new potatoes about the size of a chickens egg. Native to Nth QLD tropical rainforest on the shore line where tide and rainforest meet. Frost free climates. Full sun.

.....Priced at \$12.90 each

....Spectacular Flowers....

KAHILI GINGER

(2m*ABCD) **Hedychium gardnerianum** will give you huge attractive hanging fragrant yellow flowers with red markings.

You can cut them off for flower arrangements. Long bright green leaves.

This one is native to the Himalayas and will take a light frost and can be grown in temperate gardens right through to tropical. It shoots off a strong rhizome. Light shade to full sun.

.....Priced at \$12.90 each (250 Parries)

**YOUR HOME GARDEN
 YOUR PARADISE**

....Glorious Flowers...Heavenly Scent...

MISTY PLUME BUSH

(2mAbcD) *Tetradenia riparia* is an imposing compact bush. Strong spicy fragrance (and foliage). Used in Pot Pourri. This one will be covered in small

mauve-pink lacy flowers in winter and spring for a long period. Musk Bush has small (5cm) roundish pointed light green-grey leaves with a flannel feel. A native of southern Africa. All warm coastal climates. Full sun or part shade.

.....Priced at \$8.90 (150 Parries) or 3 For \$25

....Pineapple Flavour....

JACK FRUIT

(7mEdAbcD) *Artocarpus heterophyllus*. The fruit of the Jackfruit tree is huge even on a small tree. It is seldom less than 25cm up to 50cm in diameter and up to 36kg in weight. They grow on the trunk branches and roots of the tree and are the worlds largest tree grown fruit.

The pulp & seeds have been popular for thousands of years. Eaten raw (pineapple taste) or processed in many ways and used in asian cuisine. Believed to be a native of the Indian Western Ghats rainforest. This is a handsome stately tree in the tropics. Smaller elsewhere. Takes light frost. Full sun.

.....Priced at \$12.90 (300 Parries) or 3 for \$33

...Rare Anthurium Giant...

ANTHURIUM DUSSII

(2mAbcD) Hard to get giant Anthurium with huge rippled arrow shaped leaved leaves. Huge spadix on which the bright red fruit develops. Narrow creamy brown spathe.

The leaves are light green. Filtered Light to morning sun. These plants are 15cm tall out of the pot. Sent in 75mm diameter pots. **1 Per Customer.**

.....Priced at \$29 each (350 parries)

....Great Cut Flowers....

ICELAND POPPY

(50cmAbcD) *Papaver nudicaule*.

Brilliant late spring & summer bowl shaped fragrant flowers in red, yellow, orange, pink & white.

Great cut flowers and burn the end of the stems for even longer lasting. Cold hardy. Prefers well drained soil. Full sun to part shade. Sent in 75mm pots.

...Priced at \$5.90 (150 Parries) or 3 for \$14.90

Please Note. Plants from Paradise Distributors/Rareplants.net.au are sent in 75mm Pots+ unless specified....not 45mm tubes or bareroot like most other online nurseries. We sell a few in 45mm at a very low price and tell you. We do not bareroot plants at Rareplants...as do most eBay sellers..Beware. We have just one postage charge for multiple plants....not one plant per postage charge!!

UNUSUAL PLANTS

....Unusual Herb Tonic....

VAP CA

(30cmFABCD) **Houttuynia cordata**
Vap Ca is revered as a tonic tea and for other medicinal purposes. Amongst others for those low in energy and unwell. This is an Asian herb with a fish aroma. The leaves are used raw and cooked to flavour meat and savoury dishes, soups etc. Attractive heart shaped dark green leaves. Grows as a groundcover from underground runners and will grow in shade or full sun with moisture.

.....Priced at \$9.90 (170 Parries) or 3 for \$23
Extra Information on Vap Ca. This plant has an impressive list and is reported good for many, many ailments and good health. Includes essential fatty acids, powerful antioxidants and amino acids and more! Acts as an anti viral, anti fungal and anti bacterial agent, also anti inflammatory and reported good for rheumatism.

...Amazing Flowerer Indoors & Out...

ACHIMENES PURPLE KING

(30cmABCD) Glorious mauve purple 5cm trumpet flowers and lots of them. Flowers from late spring to autumn. Upright green fuzzy leaves with serrated edges.

This is a rhizomatous plant from the amazing Gesneriad Family. So it will always shoot off the rhizome and will multiply. Will go dormant in winter in cool areas. Native to Mexico & Central America. Requires warmth & well drained soil that is kept moist. Bright indirect light. Sent in 75mm pots.

.....Priced at \$9.90 each (180 Parries)

....Shape and Holed Beauty...

MINI MONSTERA

(1mAbcd) **Rhaphidophora tetrasperma**
Beautifully shaped and holed foliage plant for indoors and your patio. Easy to care for and a low maintenance plant. Also fast growing too! Grows smaller than a philodendron making it perfect for small spaces. Let the foliage flow out of the pot or let it climb up a trellis! Native to Thailand and Malaysia. Bright indirect light. 75mm Pots

.....Priced at \$12.90 each.

PS Not actually a monstera at all despite the name but is very similar in appearance to other Monstera plants, this one is actually from the Rhaphidophora family.

...Looks like Bright Lipstick...

LIPSTICK PLANT

Aeschynanthus radicans is a lovely hanging Lipstick with big red tubular flowers emerging from dark maroon buds, resembling lipsticks. Flowering in summer this is the most spectacular of all the Lipsticks. Great indoor plant and good in a hanging basket. Bright indirect light. Sent in 75mm pots.

.....Priced at \$9.90 each (200 Parries)

BEGONIA NOVEMBER-DECEMBER COLLECTION BEGONIA SNOWFLAKE

(70cmAbcD) *Begonia hybrid*

'Snowflake'. Rare Begonia with large leaves with broad green veins and with thousands of white speckled snowdrops all over. All leaves have a red underside.

Rosey pink flowers for most of the year. Great as an indoor plant or patio plant as well as understory in the garden. For frost free climates out of the wind. Bright indirect light and keep the soil moist.

.....Priced at \$9.90 each (200 Parries)

BEGONIA PINK DELIGHT

(40cmABCD) *Begonia diadema* 'Pink Delight'

Ornate silver patterns on sculptured star shaped leaves. This is a delightful begonia from Borneo but is a suprisingly hardy plant. Clusters of soft pink flower which is last for a long time. Flowers throughout the year but mainly flowers during Autumn. Great as a container plant! For frost free climates out of the wind. Bright indirect light and keep the soil moist. Plant in semi shade or in morning sun.

.....Priced at \$9.90 each (180 Parries)

STRAWBERRY & CREAM BEGONIA

(70cmAbcD) *Begonia* 'Strawberry & Cream'

Begonia with silvery copper toned leaves and light pink flowers for most of the year. An occasional leaf will go light pink and contrast with the coppery colour that have not changed yet. Great as an indoor plant! For frost free climates out of the wind. Bright indirect light and keep the soil moist. Sent in 75mm pots.

.....Priced at \$9.90 each (180 Parries)

**Flowering Native
.....Bird Attractors**

ROSE MYRTLE

(1.5mABCD) **Archirhodomyrtus beckleri 'Fruity'** will cover itself in glory with masses of gorgeous perfumed shell pink flowers in late spring and summer. This a graceful weeping small shrub with shiny foliage. Good as a specimen in the ground or a pot, formal hedging. Makes lovely Sticky Rose Myrtle Jam from its colourful sweet fruit. A good bird attracter. Light or full shade.

.....Priced at \$8.90 each (180 Parries)

MIDYIM BERRY (1m**RfEdABCDE)

Austromyrtus dulcis. Sweet eating unusual bird egg sized and attractive fruit. Delicate white flowers are most profuse in spring and summer but are also borne with the fruit in autumn. Dainty tapering leaves flush with growth. Suited to mild frostfree climates. Full sun or light shade.

....Priced at \$7.90 (150 Parries) or 3 for \$21

ANGLED LOBELIA

(30cmAbcD) **Lobelia alata.** Continual little ornate flowers that never stop. Very cute. This is a small low growing perennial trailing plant with small blue to mauve flowers. Multiplies nicely. Small animals love wandering through it. Full sun to part shade. Sent in 75mm pots. ...

Priced at \$7.90 ea ch(150 Parries) or 3 for \$21

...Prehistoric Edible Native...

PLUM PINE

(8m**FRfEdABCDE) **Podocarpus elatus.** If you love native edible food or birds, this is the one for you! Plum Pine is an unusual dense rain-forest tree with attractive thick stiff shiny narrow leaves and pink new growth. It's a throwback to prehistoric times when the Podocarpus pines flourished. The dense foliage contrasts with its black trunk. Bird attracting with black edible grape like fruit that tastes like a slightly aromatic plum. Plum Pine is used as a street and screen tree and is most adaptable withstanding frost and growing well in both cold and dry western areas. Native to rainforest from Cairns to Bateman's Bay. Will grow nicely in tubs or Bonsai. Full sun or shade. Long native pots.

.....Priced at \$12.90 each

PINK CASCADE TEATREE

(1m**FABCD) **Leptospermum scoparium 'Pink Cascade'** is very different native with its contrasting deep bright pink flowers and lovely very dark hanging foliage. Long lasting flowers and narrow short pointed foliage. This is a highly ornamental prolific flowering cultivar. Frost resistant and suited to all climates. Will grow in full sun through to heavy shade.

...Priced at \$7.90 each (150 Parries) or 3 for \$21

These are sent in long native tubes

ALOCASIA NOVEMBER-DECEMBER COLLECTION

...Amazing Colour..

JEWEL ALOCASIA

(50cmABCD) **Alocasia cuprea.** Dark green arrow shaped leaves can either be green or red tinged and will have a plastic like appearance! Leaves can grow up to nearly a metre! Growing to about 60cm on a stout branching stem. Great on a coffee table or the like. Will go back in cooler winter areas if you leave it out in the cold but comes back better than ever. Loves shade and part shade. Good indoors. Sent in 75mm diameter pots.

....Priced at \$14.90 each

BUDDHAS HAND ELEPHANT EAR

(2mABCDE) **Alocasia cucullata.** This Elephant Ear is a beauty with its dark grey-green broadly heart shaped pointed leaves on longish stems... like Buddhas hand reaching up to the heavens. Chinese beliefs dating back to ancient times say that it will give you long life and prosperity! Each growing to about 35 cm on a stout branching stem. The leaf surface is also attractively marked right through winter. Long white flower. Easy to grow and hardy in most climates except the cooler inland unless in a protected position. Loves shade and part shade. Good indoors. 200mm plants in 70mm pots.

.....Priced at \$12.90 each (180 Parries) or 3 for \$33

Get Both for \$25

...Fast Grower...

....Put the Powder in Your Smoothie...

MORINGA (8mAbcD)

Moringa oleifera. By weight more than 7times the vitamin C of oranges, 10 times the vitamin A of carrots, 17 times the calcium of milk, 9 times the protein of yogurt, 15 times the potassium of bananas & 25 times the iron of spinach. Valuable deciduous tree with clusters of yellow and white scented flowers. Every part of it is edible and the leaves and seed pods contain 38% protein with nearly all essential amino acids, making it a great alternative to meat. Packed with vitamins and anti oxidants. Used in traditional Asian medicine. Promoted as very useful for diabetes, cancer and auto immune problems. See back page for more. Native of India. Full sun

....Priced at \$12.90 each (350 Parries) or 3 for \$33

...Long Lasting Flowers...

ANTHURIUM JAMBO RED

(50cmAbcD) **Anthurium andreanum 'Jambo Red'**. Remarkable large wavy red with green splash heart shaped obake type flowers that stands tall above the dark green glossy foliage. As the plant grows the leaves and flowers grow larger. Flowers get to about 15cm long. Perfect to brighten any room in the house. Keep in a well drained mix in filtered light. Let it dry out between waterings.

.....Priced at \$12.90 each

...Outstanding Foliage and Good Jam...

DAVIDSON'S PLUM

(6mEdAbcD) **Davidsonia pruriens**. Pink flowers & purple fruit come straight out of its trunk! You can make delicious jam or wine out of the clustered purple fruits on this attractive little native rainforest tree. It forms

several stems each with a crown of striking and highly ornamental leaves. Easy to grow in a protected position and will then produce fruit in 3-4 years. Found only in the rainforests of the Brunswick and Tweed Valleys of Northern NSW. Probably best north of Sydney or equivalent or in warm situations.

.....Priced at \$12.90 (180 Parries) or 3 for \$33

...Unusual Dwarf with Hot Pink Flowers...

TINY TINA

(1mAbcD) **Hibiscus 'Tini Tina'** is a delightful dwarf Hibiscus which will delight you with its masses of petite hot pink flowers in autumn. The flowers are an unusual tunnel shape about 5cm long and 3cm wide. The bright glossy foliage is serrated and smaller than most Hibiscus. This is a lovely compact plant ideal for the garden or pots on the patio or around a pool. Keep this one in a warm sunny location free from frost.

.....Priced at \$8.90 (200 Parries) or 3 for \$23

...Indoor Special Appearance...

CHINESE MONEY PLANT

(30cmAbcD) **Pilea peperomioides**

Highly sought extremely popular houseplant! Succulent dark green large circular leaves hanging from a long stem. Praised for both

its stand out foliage and for being so easy to grow. A great gift for family and friends! Native to China. Cold tolerant. Indirect sunlight. In 75mm pots. Great indoors or patio plant in a shade position.

.....Priced at \$12.90 each

...An uncommon Bulb...

YELLOW IFAFA LILY

(30cmFABCD) **Cyrtanthus mackenii cooperii** are an uncommon multiplying bulb with attractive hanging narrow yellow tubular flowers in winter.

Dark green straplike grassy foliage. Do well in pots or ground and make long lasting cut flowers. Suited to all areas except the coldest Tablelands. Full sun.

.....Priced at \$7.90 (180 Parries) or 3 for \$21

Most of our plants are sent in the 70 to 75mm diameter pots they are grown in. Usually 20cm+ tall. Ferns are sent in their 100mm pots.

A clumping plant with soft deep green straplike arching foliage and lovely purple flowers in late winter and spring followed by long lasting cobalt blue berries. Very hardy and light frost resistant.

Full sun to light shade.

.....Priced at \$5.90 each

Aphelandra squarrosa 'Zebra Plant'

(30cmAbcD) is one of the more spectacular of the exotic South American shrubs. Amazing bright yellow waxy flowers arranged like a pyramid on top of the white striped leaves with red stems. They flower from Spring to Autumn. In warm frost free conditions north of Taree NSW they can be grown outdoors, otherwise indoors in a warm sunny room or glasshouse in the cooler months.

.....Priced at \$9.90 (180 Parries) or 3 for \$27

BRAHMI

Bacopa monnieri. Also known as 'The Memory Plant' it is renowned for improving memory retention. This creeper from India has small and soft leaves. Often recognised for students and executives who wish to invigorate their mental processes. It also induces a sense of calm and peace reducing the effects of anxiety and stress in work and exam situations. It is reported successful against insomnia. Has been used to help those affected by stroke, nervous breakdown or exhaustion and Attention Deficit Disorder. Just eat a couple of leaves each day and effects will appear in 3-4 weeks. Grow it in full sun to part shade in moist conditions. Will grow in water. Sent in 75mm pots.

.....Priced at \$9.90 each or 3 for \$23

...Flowering in Autumn...

GIANT HOSTA LILY

(40cm*FABCD) **Hosta plantaginea 'Grandiflora'.** Plantain Lily it produces many large pure white spikes of fragrant tubular bell shaped flowers on top of its large soft velvety green foliage which forms a mound.

Brings that luscious mid green colour to your garden. Blooms in summer. Dormant in winter. Takes shade, cold, dry & wet in its stride. Native from Japan. Keep soil moist. Part shade to full shade. Sent in 75mm pots.

.....Priced at \$15.90 (350 Parries)

STROMANTHE 'DAZZLER'

(90cmAbcD) **Stromanthe sanguinea 'TriStar'.** The cream, pink and green tones will dazzle you and brighten up any garden or room. This is an absolutely brilliant evergreen shade loving foliage plant. Loves growing in a pot or in the garden. Likes shade and is proven indoors. Big strapping leaves about 30-40 cm long and 7cm wide. This is a clumping plant from Honduras and it develops on a creeping rhizome. Appreciates humidity but is quite a resilient plant. Medium shade. Sent in 75mm diameter pots.

.....Priced at \$12.90 each (200 Parries) or 3 for \$33

HELICONIA NOVEMBER-DECEMBER COLLECTION

HELICONIA KAWIKA

(3m) **Heliconia bihai 'Kawika'.** Dark orange yellow tipped claws Compact growing. These will take warm frost free temperate conditions & are proven flowerers in Perth WA so will flower at least north of the Sydney-Perthline. Sent as strong rhizomes ready to go in the ground...with sensible preparation. If you do not know what a rhizome is please check with us or read below. These are easy growing hardy varieties. Sent as rhizomes.

.....Priced \$21.00

...Red & White Flowers in Winter...

HELICONIA RED CHRISTMAS

(1mAbcD) **Heliconia angusta 'Red Christmas'.** This is a magnificent Heliconia which will amaze you with its striking bright red and white flowers during winter and spring! The flowers are long lasting and excellent for cut flowers. This is an attractive dwarf clumping variety good in a tubor in the garden. Keep this one in a warm, moist partly shaded position in well drained mix or soil. Known to flower in Sydney and Perth. Shooting in 70mm pots.

.....Priced at \$15.90 each (400 Parries)

HELICONIA SUBULATA

(2.5m) **Heliconia schriedianna syn subulata.** Maroon & yellow terminal in winter & spring & very architectural upright claws. These will take warm frost free temperate conditions & are proven flowerers in Perth WA so will flower at least north of the Sydney-Perth line. Sent as strong rhizomes ready to go in the ground...with sensible preparation. If you do not know what a rhizome is please check with us or read below. These are easy growing hardy varieties. Sent as rhizomes.Priced \$21.00

PS Heliconias are sent in the rhizome form. This is the starch filled thickened root tissue from they which they shoot. Once they shoot in warm weather they grow rapidly & the rhizome thickens & expands even more...so the plant gradually expands with the rhizome. These rhizomes are mostly fist to half fist size. Expect long flowering from early summer to late autumn & luxuriant broad tropical foliage.

Get All 3 for \$49

DID YOU KNOW

* The oldest measured living thing in existence is not a Eucalyptus, Huon Pine or Giant Redwood, but a bristlecone pine in the White Mountains of California, dated to be aged 4,600 years old.

* The Rose family (Rosaceae) of plants, in addition to flowers, gives us apples, pears, plums, cherries, almonds, peaches and apricots & other fruits.

* Asparagus is a member of the Lily family (Liliaceae), which also includes onions, leeks, and garlic..

* The bright orange color of carrots tell you they are an excellent source of Vitamin A which is important for good eyesight, especially at night. Vitamin A helps your body fight infection, and keeps your skin and hair healthy.

* Plants with silver, hairy or thick succulent leaves do not require much water they are designed to repel heat, limit transpiration (breathing out water) and conserve water.

* Every bromeliad will have its own little spider setting up shop when he knows there is a mosquito larvae down below, ready to fly.

* Earth's gravity pulls on the Moon and keeps it in orbit. The Moon's orbit is almost a perfect circle, so the Moon is about 384400 km away all the time.

* Brahmi.. 'the memory plant' will grow profusely sitting in a pond & fish love to eat it.....and its bound to improve their memory from 30 seconds.

HOW TO GROW A RICH LIFE WITH PLANTS

TRUE LIES Just last week in the Brain Transplant Ward at Nambour Hospital Bobs family gathered to hear what the specialists had to say. "Things don't look good. The only chance is a brain transplant. This is an experimental procedure. It might work, but the bad news is that brains are very expensive, and you will have to pay the costs yourselves. ""Well, how much does a brain cost?" asked the relatives.

"For a male brain, \$500,000. For a female brain, \$200,000." Some of the younger male relatives tried to look shocked, but all the men nodded because they thought they understood. A few actually smirked. But Bob's aunt was unsatisfied and asked, "Why the difference in price between male brains and female brains?"

"A standard pricing practice," said the head of the team. "Women's brains have to be marked down because they have actually been used."

MORINGA - Miracle Tree

Moringa oleifera provides (for the same weight) more than 7 times the vitamin C of oranges, 10 times the vitamin A of carrots, 17 times the calcium of milk, 9 times the protein of yogurt, 3 times the potassium of bananas and 25 times the iron of spinach. Moringa is also known for its phytochemical content. Most notably, it contains cancer-fighting compounds known as glucosinolates, which are also found in cruciferous vegetables like cauliflower and broccoli.

With a nutritional résumé this long, it's easy to see why many people are eyeing moringa as the next great superfood for modern diets. Proven in Ayurvedic Medicine over thousands of years to treat auto immune disease, cancer, asthma, high blood pressure, sleeplessness, diabetes and more.. The acid in the leaves acts as a blood sugar balancer. Also used for anemia, anxiety, asthma, blood impurities, bronchitis, chest congestion, cholera, and more.

Although no caffeine Moringa is a great energy booster.

The powder smells like a mild, peppery version of green tea and tastes like matcha spiked with spirulina. The dried powdered leaves dissolve easily in water.

Moringa grows quickly like 5m plus a year... so you will be able to make plenty of powder from the leaves to put in your breakfast cereal, teas, juice, yoghurt, smoothies etc.

The more you harvest this quick grower the more it will shoot back with more edible foliage. Being deciduous in winter you can grow this small tree in cold areas as well as hot. It is tough and drought resistant. In spring it shoots away very fast and you just keep harvesting away on it as the trunk grows fatter.
