

...Low Freight Rates...

No matter how many plants are in your order our postal charge is the same low rate for the whole order. **Qld & NSW - \$18.00, Vic - \$22.00, S.A - \$26.00, WA, Tas & NT - \$49** (Includes Quarantine Inspection Costs). ***Please note: The post & packing charge is for the whole order not each plant.** Unless specified plants are sent in long pots 70mm wide. Our plants are specially treated to ensure they travel well and in remote areas are able to travel up to two weeks without ill effects. Our unique packaging method has been giving great results for 31 years. You can either plant them straight into the garden, hold them in their pots or repot them with the pots of your choice. Plants that grow in full sun have been hardened to full sun conditions. **KEY:** 1.0m Typical Height of Plant in Cultivation ie one metre, V = Vine. *Fragrant ** Native To Australia, Rf Rain-forest Plant, Ed Edible, F Frost Resistant, Fm Moderately Frost Resistant. Suited to: A Mild Climates from Hervey Bay (+Nth Qld Tablelands) South to Wollongong, Sth Aust & WA. B Inland / Hot&Dry, C Cool Areas/ Tablelands, cool parts Tas&Vic, D Tropics, E Seaside Planting-Salt Spray. If we use a small a, b, c, or d indicates not known by us but worth a try with extra care and placement. Often our customers give feedback on these. In addition every climate has different microclimates and every backyard has its own microclimates with various degrees of protection against the elements. Microclimates can be created that allow one gardener to grow plants that the neighbour can only dream about.

Western Australian, NT & Tasmania

Tasmania is sent every Monday. WA & NT Orders will be sent on the Following day: **Monday 8th April.** We need your order by 2.00pm AEST **Monday 1st April** as we go through an intricate Quarantine Approval & Inspection process & need to do this in one batch to make the process feasible. Air Delivery surcharge is 15% added on to your total order. We send Toll Air Priority. **No PO Boxes**

caused by high blood sugar. It also lowers blood pressure, cholesterol and triglycerides, and has anti-inflammatory and antiviral action. Diabetics who use the herb have experienced very satisfying results in lowering glucose levels, and normalising the blood sugar.

Now for non-diabetics, it is said, the herb does not have this lowering glucose level affect, and it is interesting, that, non-diabetics are able to get the other therapeutic benefits of Sambung without the danger of having their blood sugar levels manipulated below normal levels.

FOCUS ON THE DIABETES

PLANT Notes from Isabelle Shippard

DIABETES PLANTSAMBUNG (Gynura procumbens)

It is a hardy perennial, of the Asteraceae family to which daisies belong, and includes many plants useful to man, eg. German chamomile, echinacea, sunflower, calendula, dandelion and St. Mary's thistle. The plant is well known in South East Asia, with folklore medicinal uses in China, Indonesia, Malaysia and Thailand, and the leaves of the plant are also eaten as a vegetable. Leaves have a mild flavour (some people say far better than spinach as a vegetable, while others say the leaves taste like green beans) and can be used raw in salads, added to soups, stir-fries, casseroles, condiments and sauces, rice dishes and other savoury meals. And when growing very well, and leaves are in excess, feed some to laying hens, or grow some plants in a poultry forage system.

Sambung Leaves Many people just make it "a way of life" to eat 2-3 leaves a day, for the many benefits to health the plant may provide.

The herb has been noted for anti-viral, anti-inflammatory, anti-histamine, anti-pyretic, anti-oxidant, anti-cancer, anti-ageing, anti-allergy properties, and also actions as a blood cleanser, tonic, diuretic and pain killer. **Isabelle listed many human problems including male and female reproductive health that can be found on our website**

www.rareplants.net.au...search Diabetes Plant to see the full list with more testimonials.

Many people from South East Asia know the herb as 'life extender'. Fred who visited the Herb Farm asking for the Sambung plant to grow, told me of his aged aunt, who started taking Sambung daily since 1988 as she had been diagnosed with kidney and bladder cancer, and 20 years later Fred said, she is still alive and active; a 'life extender' for Fred's aunt. Sambung contains asparaginase. Asparaginase is an enzyme that has been found to lower levels of acrylamides in the body. Researchers say, acrylamides are seen as cancer causing substances, that are created when some foods are fried, baked, grilled or roasted. Acrylamides have also been found in foods, grown on mineral depleted soils. The addition of asparaginase to foods is one strategy to lower acrylamide levels in foods, and this is where Sambung comes in by eating a few leaves daily, we provide a natural source of asparaginase. Any herb, a nature's remedy, that we can grow and use regularly for well-being, is most worthwhile.

Research has shown that it is an efficient regulator of blood sugar, and that the herb is also found to protect the kidneys, and also retinas, from damage

...Leaves as big as a Volkswagen!..

DIAMOND JOEY PALM

(3-6mAbCD) **Johannesteijsmannia altifrons** is a stunning and spectacular medium sized trunkless palm with huge

undivided diamond shaped palm leaves! The palm growing up to 6

meters tall and 3 meters wide in good conditions. Long and wide undivided green leathery leaves with a serrated edge are often used in thatched roofs. Surprising cold tolerant given its tropical look and native location which is in South East Asia. Prefers well drained soil in a warm and shelter position with filtered light. Grows well from Sydney or equivalent to the north. These are large 4 leaf plants 50cm tall in 15x15x20cm square pots. Sent loose rooted with roots intact.

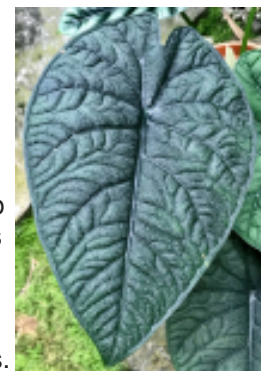

.....Priced at \$110 each

...Gorgeous Hard Cretaceous Skin...

RHINO SKIN ALOCASIA

(30cmABCDE) **Alocasia melo**. Very striking and different to most Alocasias!

This is a very attractive and striking house plant with green patterned leaves with a rough texture with deep veins. The leaves have a croc like texture. Easy to grow and is excellent indoors.

Great feature. Native to Malaysia. Can be planted outdoors as long it's kept in a shady position. Prefers a well drained mix. Indirect bright light. We have grown a lot and this is your chance to get these at our temporary low price. Sent in 75mm pots.....Priced at \$12.90 each (250 Parries)

....Plants are Forever..

ON THE WEB AT

www.rareplants.net.au

PHEONIX GINGER

(1.5mEdACD) *Costus comosus* x *productus* 'Pheonix' will leave you incredulous with its magnificent bright red beeswax cone like flowers in a tower formation from spring onwards. Sprouting out yellow flowers from the red cone. The yellow flowers reportedly edible with light sweet ginger flavour. These amazing flowers can be retained on the plant for up to nine months. Lovely strong clumping plant with broadish light green foliage. Cold tolerant. Part shade. Sent in 75mm diameter pots.

.....Priced at \$12.90 each (300 Parries)

...Specy Striped Flowers...

BARLERIA JET STREAK

(1mAbcD) *Barleria cristata* 'Jet Streak'. Masses of spectacular mauve and white striped flowers. Flowering from Spring to autumn. Light green foliage. Great for tubs, borders, patios, accent foliage and as a garden specimen. Ideal small shrub for a sunny to part shade, well-drained position. Warm coastal climates. Sent in 75mm diameter pots.

...Priced at \$8.90 (190 Parries) or 3 for \$23

Hoya mindorensis

(VAbcD) Long feathery hair extending out from the pinkish red star shaped flowers with a cream to yellow center. Huge umbels that are perfectly globe shaped. Gorgeous green leaves. Will take cool conditions. Hardy indoor, patio or shadehouse plant. Let it dry out a little between waterings. Filtered bright light...morning sun. Sent in 75mm diameter pots. Numerous flower variations all spectacular. Native to Phillippines.

.....Priced at \$12.90 each

...Absolutely Delicious & Healthy...

WHITE MULBERRY TREE

(4-15mEdAbcD) *Morus alba*. Delicious berry fruit on this small tree which produces early and can be kept in a pot. Also reported useful for Diabetes, Insomnia, and premature ageing. A small hardy deciduous tree with dense foliage. Producing oval juicy white fruits in summer. Does well in containers. Full sun.

.....Priced at \$9.90 each or 3 for \$26

UNUSUAL PLANTS

AGLAONEMA

'SILVER QUEEN'

(50cmAD) **Aglaonema commutatum** 'Silver Queen'. Nicely marked succulent looking foliage with heavy silver splashes.

Aglaonemas are soothing foliage plants that are great under dull light conditions.

Amazing colours can now be yours also. Keep on the dry side when temperatures are below 20oC. Colour can vary depending on the light intensity. Great in a pot inside in cooler areas or outside or in a subtropical garden. Aglaonema are so easy care you cant go wrong because they love the shade they handle indoor conditions with ease and in warm areas they will light up any garden. They are tough & handle a variety of conditions and are relatively pest resistant and long lived.

.....Priced at \$12.90 each

WHITE CROCUS

(15cmFmABCDE) **Zephyranthes candida**. Lovely white yellow anthered

erect crocus like flowers come forth in summer and autumn. This is a fine clumping plant with narrow needle like soft dark green foliage. Bulbs about 25mm wide develop and multiply greatly

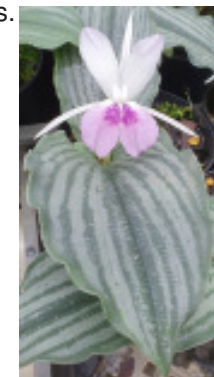

in little time. Great as a border, in a rockery or pot. There are about 70 species of Zephyranthes all from the Americas. Full sun or part shade.

.....Priced at \$7.90 each (150 Parries) or 3 for \$21

SILVER STREAK GINGER

(40cmAbcD) **Kaempferia aff angustifolia** 'Silver Streak' has large attractive greyish-green leaves with attention grabbing silver stripes. Hard to get. Blooms white and pink orchid like flowers from summer to autumn. A member of the Zingiberacea Ginger Family. Grow on a rhizome and go dormant in the winter only to shoot forth in spring with its colourful leaves. Loves moisture and shade in warmer months.

.....Priced at \$12.90 each or 3 for \$33

Dendrobium vandoides

Gorgeous subtly coloured pale yellow to white flowers speckled with pinkish red spots. Smaller dots

on the tip and edges with bigger dots on the center petal.

A robust orchid flowering throughout the year. Native to Papua New Guinea. These 100mm tall plants are sent in 70mm pots.

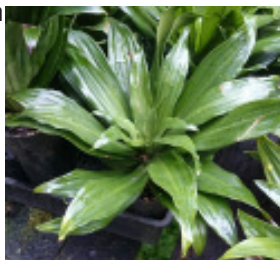

.....Priced at \$14.90

Most of our plants are sent in 75mm diameter pots they are grown in. Usually 20cm+ tall. Ferns are sent in their 100mm pots.

DRACAENA COMPACTA

Looking for the most durable indoor plant you can find? This could be it! Rated Ten Times More Generous than the Credit Card Rewards Programs !

Paradise Bonus Rewards System -

Each order we send out will have a voucher with bonus points (Parries) awarded. The bonus points will be on the basis of:
10 Points (Parries) for every \$10.00 of purchases. Most plants we advertise in the main part of our catalogue will have its **Parry value to purchase** listed in brackets after the price. When you wish to use your Parries just send in your vouchers or fax or phone them. Remember the bonus point vouchers are dated and have an expiry on them and **once expired they are invalid**. The bonus points are known as 'Parries'. The Parries must accompany an order valued at \$20 or more. If the plant costs less than the Parries you hold we will send back change in Parries. Parries are not exchangeable for cash **nor deducted from an order** & are not transferable to another person. Simply choose your plant.

Paradise Stock Plants

We are holding stocks of the following plants at the moment. Availability is subject to orders. Descriptions can be found in past catalogues marked in brackets. Symbols are described in back page Key. Flower colour and time are abbreviated after brackets.

...Rare.....Hort. Society Merit Award...

ACIDANTHERA

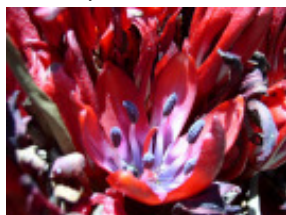

(70cmFABCD) **Abyssinian gladiolus**. Big 5cm fragrant hooded white with purple center flowers in profusions in spring and summer. Graceful and airy, the flowers are carried on arching slender tubes. Clumping bright green sword like foliage. Won the prestigious Royal Horticultural Society Garden Merit Award 1993. Great cut flowers. Deciduous, they shoot back from a multiplying corm each spring. Sun to light shade.

.....Priced at \$9.90 (200 Parries) or 3 for \$26

SPEAR LILY

(4m**ABCD) **Doryanthes palmeri** is an unusual and amazing native plant, closely related to and just as spectacular as the Gynea Lily. From high altitude rain-forest in NE NSW and SE QLD. The flower stem can be up to 5m tall with brilliant red flowers over the top half. The leaves themselves are speccy growing up to 3m long and are bright green, ribbed and swordshaped growing in a large rosette. This plant can be grown in a tub and makes a nice landscaping piece in the garden. Succesfully grown in Sydney and Melbourne. It is restricted to frostfree areas. Full sun to full shade.

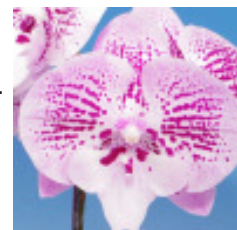

.....Priced at \$8.90 each (150 Parries)

Plants multistemmed about 50mm tall. Sent in 70mm pots.

....Priced at \$14.90 each

BODHI TREE (9m)

Ficus religiosa is the famed tree under which the Buddha sat for 6 yrs when he attained enlightenment. You will find it in and around every Buddhist Temple! Also a magnificent signature tree that can also be kept in a pot. Very popular for Bonsai. Its heart shaped leaves have a pointed drawn out end. It must be pollinated by a special wasp. Love full sun & can be grown in the shade.

.....Priced at \$18.90 each

BLUE GINGER (1.2m) Dichorisandra thyrsiflora.

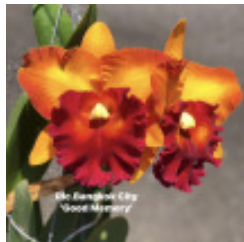

Vivid violet blue longlasting blooms from summer to autumn. The spirally arranged leaves are glossy as are its cane like (ringed) stems. This is an interesting and spectacular plant. Requires a well drained soil or pot in the shade. Filtered light.

.....Priced at \$12.90 each

CHINESE FOXGLOVE (1.5m)

Rehmannia angulata. Pink trumpet shaped flowers with a yellow throat covered in maroon spots. Blooming from late spring til early autumn on upright stalks above the clumps of textured deep green foliage. Excellent cut flowers and great as a border plant! Evergreen and spreads rapidly in warmer climates. Deciduous in cooler climates with leaves turning red in autumn. Prefers well drained soil. Full sun to part shade.

.....Priced at \$9.90 each

....**Red & White Flowers in Winter....**
HELICONIA RED CHRISTMAS (1m)
Heliconia angusta 'Red Christmas'. This is a magnificent Heliconia which will amaze you with its striking bright red and white flowers during winter and spring! The flowers are long lasting and excellent for cut flowers. This is an attractive dwarf clumping variety good in a tub or in the garden. Keep this one in a warm, moist partly shaded position in well drained mix or soil. Known to flower in Sydney and Perth. Shooting in 70mm pots.

.....Priced at \$15.90 each (400 Parries)

HOYA LIDDLEANA

This is a rare Hoya I collected in the Milne Bay area Papua New Guinea in 5-6 years back. Named recently in honour of Iris Liddle & David Liddle (Late)famous hoyo pioneers. The huge ribbed flowers are maroon and cream centred in clusters of 3 or more. It has quite long and thickish pointed crinkled leaves which may take a while to fully develop. Likes bright light under light shade and grows quickly here in Nambour. Hardy at least to 40C. Recently verified by QLD. Herbarium. **Strictly One Per Customer!**

.....Priced at \$25.00 each

BIRD'S NEST ANTHURIUM (3m) Anthurium schlechtendalii.

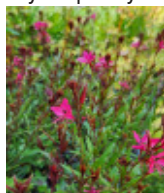

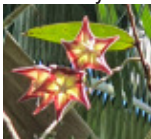

This is a large Anthurium which when grown in a large pot or in the ground in well drained conditions. Large broad shiny green crinkly leaves with light green undersides. The leaves is also used for multiple medicinal purposes to help treat back pains, sore muscles, rheumatism & arthritis. Native to Mexico and Costa Rica, this one has a purple spadix to 60cm long and 75cm thick which the spadix produces small red berries (Not edible). It will grow in all warm frostfree climates and appreciates good light and resents being too wet in heavy shade. Bright indirect light.

.....Priced at \$12.90 each

PINK BUTTERFLY BUSH (60cm)

Gaura lindheimeri will give you plenty of panicles of bright pink butterfly shaped flowers on 60cm stems. Flowering freely all year above a clump of fine rosetting narrow foliage. The effect is light and delicate. Frost and cold resistant. Good as a border, in a cottage garden or between taller shrubs. This one can be divided later on if you want more plants.

NEWSLETTER MARCH 2024

Thankyou for your wonderful orders last month.
We have had a great rainy summer....at times over the top and damaging but its been brilliant overall. Another warm summer as usual and great growing conditions.
.....From Bob & Bev Chalmers

...A Smile is the beginning of Peace. ...*Mother Teresa*

Politicians Banned
from our Nursery.
...Parry

DID YOU KNOW

1. If your Maidenhair Fern gets flogged by wet weather and the fronds start rotting the best way to revive it is to completely defoliate it at ground zero ie cut it back 1mm above its base. Then blow off all the fine debris left so as not to inhibit the tiny fine growth that will reshoot. Apply liquid fertiliser and add slow release fertiliser as well.
2. Do the same as above in spring if your maidenhair looks shabby coming out of winter.
3. Most plant cuttings will take using only one or two nodes.
4. Genesis Seed Mix is great for you but did you know how good it is for your Dog?
5. More than 85% of plant life is found in the ocean.
6. We human beings use more than 2000 different types of plants to create various delicious food items in our meals.

Who Benefits from Extreme Weather Anxiety

..... Unfortunately Children Believe Anxious Adults
and are Being Flushed with Anxiety

Around 15% of todays Adults suffer from an Anxiety Syndrome caused by the unpredictability of life. Spoilt by their hardworking parents they need every aspect of life to be predictable and controlled and if its not, look out if something unpredictable like the weather for example goes crazy. Of course politicians and weather Gurus should be able to control the weather (not) !! Of course us humans should be able to change the weather (not)!!

Who are the people who benefit by this Exaggeration?.....

Its those 15% Spoilt Anxious People.....who can fill their egos with self importance proclaiming disaster and telling everyone else what to do in a Religious Zealousy. Its the Media who loves a bad news story. Its the Anti Science Universities which will not allow the Scientific Method (of studying counter Hypotheses) to proceed at all. All Scientists are not in agreement with the Theory of Climate Change and the Hubris about reversing it.

And then it can also be the Politicians after votes who will take advantage of the Media Push. Another beneficiary is China sitting back laughing as they sell us non biodegradeable solar panels, batteries and wind farms while they build multiple coal fired power stations!!

HOW TO GROW A RICH LIFE WITH PLANTS

TRUE LIES

A man over at Caloundra who thought he was John the Baptist was disturbing the neighborhood, so for public safety, he was committed.
He was put in a room with another gentleman also recently committed and immediately began his routine, "I am John The Baptist! Jesus Christ has sent me!"
The other fella looked at him real hard and declared, "I did not!"

IT'S UP TO THE PLANT LOVERS TO KEEP ON PLANTING!! The only proven way to improve earths climate and nature in general is to nurture more plants for food and building materials but especially for our wildlife and our own natural well being. Then we will turn deserts to forests, create timber and food, increase rainfall and humidity and provide wildlife habitat. And hopefully pacify the Anxious to bring them Peace.

Olly and Busby Thrive on Genesis Seed Mix

If you wish to give your dog a genuine High Nutrient Supplement go no further than Genesis 1:29.

There are numerous articles from Vets about the benefits of the seeds in our mix for your Dog. Olly chases me every morning for his share from my breakfast. Us humans only require 40 grams per day however a 7kg dog requires only 4 grams per day. This means an 800 gram Packet of Gen 1:29 will last your canine friend 200 days.

It will improve heart health, inflammation and all the same benefits humans get.

You can get Genesis 1:29 from our rareplants website on www.rareplants.net.au or on our dedicated superfoodau.com website (dedicated to Genesis 1:29) where you can see Olly knocking down his Genesis Superfood breakfast.

Genesis Seed Mix now has its own website.

www.Superfoodau.com Please have a look... you can order
it here on this website or there on Superfoodau.com
or Phone Bob direct on 0408 687 109.

**Genesis 1:29.....Natural, High Nutrient,
.....High Protein, Low Carb, Low GI Food
.....Chuck your Vitamin Pills & Get Natural Vitamins & Lots More.**

GENESIS 'All the Seeds in the field are Good' Genesis1:29 Get all the goodies you need from this formulated natural food. A mix of 12 seeds and nuts... it is made up of Almonds, Psyllium, Pepitas, Linseed, Hemp, Lecithin, Sesame Seeds, Brewers Yeast, Wheatgerm, Sunflower Kernals, Chia and pure Cocoa.

If you suffer from a health problem this nutritious food will help you. If you are a vegetarian this will make life much better for you and enable you to escape the anaemia many vegetarians suffer. If you are overweight this will help you by eating high protein low fat and low sugar food. If you are healthy now help keep yourself that way. One packet will last a man 20 days and ladies about 30 days. This replaces all breakfast cereal and will provide twice as much energy as a plate of Weeties etc. Also all essential minerals and vitamins.

Thats Why..
I'm Slim Healthy
& Happy. Lily
