

...Low Freight Rates...

No matter how many plants are in your order our postal charge is the same low rate for the whole order. **Qld & NSW - \$18.00, Vic - \$22.00, S.A - \$26.00, WA, Tas & NT - \$49** (Includes Quarantine Inspection Costs). *Please note: **The post & packing charge is for the whole order not each plant.** Unless specified plants are sent in long pots 70mm wide. Our plants are specially treated to ensure they travel well and in remote areas are able to travel up to two weeks without ill effects. Our unique packaging method has been giving great results for 31 years. You can either plant them straight into the garden, hold them in their pots or repot them with the pots of your choice. Plants that grow in full sun have been hardened to full sun conditions. **KEY:** 1.0m Typical Height of Plant in Cultivation ie one metre, V = Vine. *Fragrant ** Native To Australia, Rf Rain-forest Plant, Ed Edible. F Frost Resistant, Fm Moderately Frost Resistant. Suited to: A Mild Climates from Hervey Bay (+Nth Qld Tablelands) South to Wollongong, Sth Aust & WA. B Inland / Hot&Dry, C Cool Areas/ Tablelands, cool parts Tas&Vic, D Tropics, E Seaside Planting-Salt Spray. If we use a small a,b,c, or d indicates not known by us but worth a try with extra care and placement. Often our customers give feedback on these. In addition every climate has different microclimates and every backyard has its own microclimates with various degrees of protection against the elements. Microclimates can be created that allow one gardener to grow plants that the neighbour can only dream about.

Western Australian, NT & Tasmania
WA, NT & Tasmania Orders will be sent on the Following day: **Monday 4th November.** We need your order by 2.00pm AEST **Monday 28th October** as we go through an intricate Quarantine Approval & Inspection process & need to do this in one batch to make the process feasible. Air Delivery surcharge is 15% added on to your total order. We send by Australia Post.

Cool Country Growing. Follow the above and here are some known performers for southern areas: Hoya carnosa, Hoya Indian Rope, Hoya globulosa, Hoya shepherdii, Hoya diversifolia, Hoya nicholsonii, Hoya pubicalyx types, Hoya australis.

Low Humidity. Go for the H. pubicalyx and H. carnosa types as well as those with thick or hairy leaves.

How. Let them hang or climb or guide them along tie wires.

FOCUS ON HOYA

Hoyas are climbing, upright and/or hanging plants native to the tropical and sub-tropical worlds of Australia and Southern Asia. The flowers have varied shapes often star shaped & are thick and waxy in mixed colours. The flowers always have a central corona and 5 petals. The leaves vary from miniature through to large and thick to long and narrow. The leaves can be clear of markings, heavily veined through to silver streaked, variegated or painted with chimeras that have red, pink, maroon, bronzed tones.

Hoya Care (see our Archived Video)

Hoyas are easy care & not fussy
Light - Hoyas like a water View !

Treat all Hoyas as individuals. Each species has its own dislikes with regard to light requirements. Always tend towards more light to get good growth and flowering .

In the jungle of New Guinea we walked transects through the forest and discovered there were no Hoya in the thick forest. Every one of our finds were on the edge of openings in the forest canopy and more specifically on the forest edges overlooking rivers. Here they can get good light and hang or climb as they please.

Some Hoyas will thrive in full sun, like Hoya Australis. Many have not even been tried in full sun to see if they favour this....the difference in the growth and plant features can be dramatic under different light conditions. To be safe do morning sun at the most right down to 70% shade. You can grow & flower them under fluorescent light and indoors near windows.

Potting Mix Hoyas are epiphytes usually and need an open potting mix. Never overpot an epiphyte or you will most likely kill it. You can keep a hoya flowering in a 70mm diameter pot for years!!

Usually a 100-120mm pot is plenty big enough. If you want to kill it pot it up in a big ger pot !!

Watering Let it dry out a little between waterings. Dont overwater especially in winter. They do like humidity but see our note below for cooler country.

← **Fertiliser** Add slow release granules in spring. Use fish or kelp..dont overdo it.

...All Frost Free Climates...

MYRIANTHA X DOLI HYBRID CHANDELIER PLANT

(1mAbcD) **Medinilla myriantha x dolichophylla.** This is a new release for us...a rare gorgeous Medinilla different to dolichophylla but with similar hanging bright purple calyxed flowers that are broad and white. However the foliage is broad and veined like myriantha and the flowers come at any time of year including winter!

Flowers In gorgeous hanging clusters which last for months. Branches readily providing heaps of branchlets for these amazing flowers. Quite cold hardy and is suitable to all frost free climates, otherwise sheltered in winter. Bright filtered light. In 75mm pots.

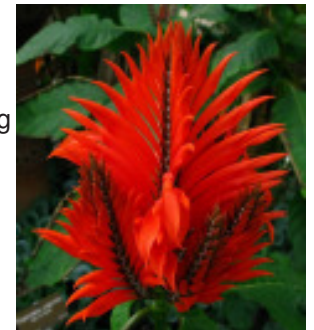

.....Priced at \$19.90 (400 Parries)

...Eyecatcher From South America!...

RED APHELANDRA

(1.2mAbcD) **Aphelandra tetragona.** Is one of the more spectacular of the exotic South

American shrubs grown for its amazing bright orange-red flowers spikes! They flower from Spring to Autumn. In

warm frostfree conditions north of Taree NSW they can be grown outdoors, otherwise indoors in a warm sunny room or glasshouse in the cooler months.

.....Priced at \$12.90 (300 Parries)

SYNGONIUM CONFETTI

(30cmAbcD) *Syngonium podophyllum* 'Confetti'. Gorgeous creamy pastel pink shades with light and dark green soft heart shaped leaves. Tough indoors and will survive drying right out, in fact it seems to thrive on it. In addition it will also grow in water! This would have to be the hardest of all indoor plants. From Tropical America. They form aerial roots and will climb a totem or trail from a basket and if you want compact growth just tip prune. Very attractive indoors or in the garden. Syngoniums need warm conditions. Shade. Sent in 75mm diameter pots.

.....Priced at \$15.90 each (350 Parries) or 3 for \$44

....**Brilliant & Unusual Flowers....**

BRUGMANSIA

FROSTY PINK

(3m*FmABCD) *Brugmansia* 'Frosty Pink' This Angels Trumpet will give you huge (25cm) pale pink coloured frilled trumpet flowers in late spring & summer. Flowers have a sweet perfume scent. Very fast growing they have velvety light green foliage. Will survive a mild frost. Suited to all areas except the harshest. Full or part sun. 75mm Pots

.....Priced at \$14.90 each (250 Parries)

BETEL LEAF

(80cmAD) *Piper sarmentosum*. Heart shaped green leaves. Lovely spicy flavoured leaves. Mostly cultivated in South & Southeast Asia. Leaves of Betel Leaf are popular in south east Asian cooking, being used raw and cooked.

Have a go raw in a salad or use as a wrapping. These wraps are a favourite in Thailand. Shiny heart shaped leaves and tiny white flower spikes. Prefers well composted, moist, well drained soils in a protected, sunny position. Drought and frost tender. A tropical evergreen. Requires well drained fertile moist soil. Full sun to part shade. Sent in 70mm pots.

.....Priced at \$12.90 each (250 Parries) or 3 for \$33

CHINESE MUGWORT

(1m*ABCD) *Artemisia argyi*. This is an old favourite as a medicinal herb. The leaves have a pleasant pungent smell due to their oil content. Good in a fragrant garden or as an informal hedge. This is a fast growing small shrub with attractive grey green foliage. All climates. Full sun.

.....Priced at \$8.90 (150 Parries) or 3 for \$25

UNUSUAL PLANTS

BUDDHAS HAND ELEPHANT EAR

(2mABCDE) **Alocasia cucullata**. This Elephant Ear is a beauty with its dark grey-green broadly heart shaped pointed leaves on longish stems...like Buddhas hand reaching up to the heavens. Chinese beliefs dating back to ancient times say that it will give you long life and prosperity! Each growing to about 35 cm on a stout branching stem. The leaf surface is also attractively marked right through winter. Long white flower. Easy to grow and hardy in most climates except the cooler inland unless in a protected position. Loves shade and part shade. Good indoors. 200mm plants in 70mm pots.

.....Priced at \$12.90 each (250 Parries) or 3 for \$33

....*Libido & Vitality Lifter*....

INDIAN GINSENG

(75cmFmABCd) **Withania somnifera**, also known as Ashwaganda, Ayurvedic Shrub and Withania. Highly esteemed as Indian medicinal plant. The dried root is used in the Ayurvedic system as a general, or strengthening, tonic. Primarily as a remedy for sexual exhaustion, weakened immune system and chronic fatigue syndrome. A modern folk remedy for multiple sclerosis. Native to Africa, Mediterranean area, India & Asia. Prefers light to medium well drained soils in a protected, sunny position. Will tolerate a light to medium frost. Eat the leaves, berries or roots.

.....Priced at \$15.90 each (350 Parries)

PURPLE PUMPKIN CHILLI

(25cmABCd) **Capsicum annuum** is a showy evergreen Chilli with purple pumpkin shaped peppers. They change colour to orange after several weeks. The peppers are mild when purple but hot when they change to orange. They will flower in the warmer months and set fruit and if the fruit are removed the plant will flower and set more colourful persistent fruit for you. Suited to all frostfree climates. Great as a showy border, in the herb garden or in a decorative container. Can be brought inside for a while. Full sun.

.....Priced at \$9.90 each (200 Parries) or 3 for \$26

....*Lots & Lots of Flower heads!*....

MUSCARI LIRIOPE

(30cmFABC) **Liriope muscari**. Lovely dark violet bell shaped flowers in long heads in summer and autumn. There are heaps of these tiny flowers on each head and heaps of heads! The light green straplike foliage forms dense attractive arching clumps. Good as a container plant inside and out or as a border or groundcover, especially as under trees and in dark shady places. Native to China & Japan, suited to all climates except possibly tropical. Full to part shade.

.....Priced at \$7.90 each (150 Parries)

or 3 for \$21

All 4 Angels Trumpets for \$36

Rated Ten Times More Generous than the Credit Card Rewards Programs !

Paradise Bonus Rewards System -

Each order we send out will have a voucher with bonus points (Parries) awarded. The bonus points will be on the basis of:
 10 Points (Parries) for every \$10.00 of purchases. Most plants we advertise in the main part of our catalogue will have its **Parry value to purchase** listed in brackets after the price. When you wish to use your Parries just send in your vouchers or fax or phone them. Remember the bonus point vouchers are dated and have an expiry on them and **once expired they are invalid**. The bonus points are known as 'Parries'. The Parries must accompany an order valued at \$20 or more. If the plant costs less than the Parries you hold we will send back change in Parries. Parries are not exchangeable for cash **nor deducted from an order** & are not transferable to another person. Simply choose your plant.

MOSS

Like a lush green carpet. For terrariums, bonsai, landscaping and germinating ferns.

(4m**RfAbcD) *Metrosideros queenslandica* will present you with large clusters of golden yellow flowers in abundance in spring. From the cooler rainforest of the Atherton Tablelands and is a small bushy tree with a very attractive dense habit and bronze new growth. The leaves are tightly arranged and very pretty, being small, shiny and coloured depending on the season. Makes an excellent tub specimen. Proven as far south as Sydney. Sunny position.

.....Priced at \$11.90 each (200 Parries) or 3 for \$33

Tiny Plants for Tiny Prices

FURCRAEA MADIOPICTA

(3mFABCD) *Furcraea foetida* 'Mediopicta'. Put your neighbours in awe of you with this monumental succulent plant. Its erect rosetting stiff broad foliage has big creamy bands down the centre of its yellow green leaves but the best part is the shiny surface which sets up a striking colour combo. When they flower you get a giant 10m tower with amazing yellow fragrant flowers & bulbils which become plants! Marvellous landscape piece. Native to Nth South America. Drought & frost resistant. Full sun to part shade. Sent in 42mm diameter tubes.Priced at \$3.90 each

BLUE BUTTERFLY BUSH

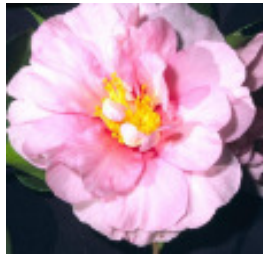

(2mAbcD) *Clerodendrum ugandense* will give you eyecatching butterfly shaped big anthered flowers in two tones of blue in summer and autumn. The flowers are in terminal sprays and do look just like butterflies in the wind. This is an attractive open bush with arching branches and is more tolerant of cold than most Clerodendrums. Native to Eastern Africa it is suited to warm frostfree areas. Full sun. Small plant. Sent in 42mm diameter tubes.Priced at \$3.90

...Brightly Coloured fragrant Flowers!..

CAMELLIA RUSSHAY

(3mFABCD) *Camellia sasanqua* 'Russhay'. Wonderful pale pink peony flowers with white edges and golden stamens! These Sasanqua Camellias will give you plenty of lightly fragrant flowers from autumn through to spring. They have handsome glossy dark leaves. Vigorous open growth habit. These are cold hardy and one of the hardiest and easiest to grow of all garden plants. Takes more sun than the other Camellias. Part shade in a well drained position. Sasanquas are great in the garden or in a pot. Any climate. Sent in 42mm diameter tubes.Priced at \$3.90

....Huge Double Winter Flowers....

BLACK TIE CAMELLIA

(1.2mFABC) *Camellia japonica* 'Black tie'. This lovely Japonica Camellia will give you huge deep red, formal double flowers from autumn through to spring. Excellent cut flowers. They have medium sized oval shaped glossy dark leaves luxuriantly foliated. Vigorous upright bushy growth habit. Native to Japan, these are cold hardy easy to grow. Likes part sun to light shade in a well drained position. Any climate. Small Plant. Sent in 50mm pots.Priced at \$3.90 each

....Priced at \$14.90 each (300 Parries)

THESE 3 FERNS FOR \$37

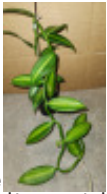

PINEAPPLE LILY (50cm)
Eucomis autumnalis. Eyecatching and different with the strangest flower you have ever seen! Blooms in summer continuously lasting till autumn. Pineapple like cluster on top! Waxy white, burgundy centred, star shaped sweet scented flowers. Wide long brown spotted leaves. Can attract bees, butterflies and birds. Goes dormant in winter but springs back bigger and flowers every year. Easy to care for, low maintenance. Native to South Africa. Well drained soil. Full sun to light shade. 75mm pots.Priced at \$9.90 each (200 Parries)

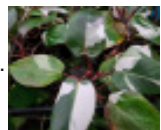

PILEA RAINDROP (30cm)
Pilea polybotrya. Luscious indoor plant that needs to be admired close up. Deep glossy green rounded heart shaped leaves. Nice compact plant. Unusual sweetly fragrant white flowers with a green tip like an Android spadix. Native to South America. Very easy to maintain and a hardy plant that will tolerate a wide array of conditions. Allow it to dry in between waterings. Bright indirect light or part shade. 75mm pots.Priced at \$12.90 each

VARIEGATED VANILLA ORCHID VINE
Vanilla planifolia Variegated is a highly sought variegated form of the Vanilla Vine. Dark green leaves with gold stripes. Clusters of golden flowers which produce pods. Natural Vanilla is sourced from the pods. This climbing orchid vine can reach up to 15m in the tropics. It is free growing in the sub tropical areas and must have very well drained conditions. Suited to coastal climates in a warm spot...morning sun or light shade. 75mm pots.Priced at \$15.90 each (300 Parries)

Philodendron 'White Knight'
 This is a gorgeous dark green and white variegated Philodendron with pointed foliage. Burgundy stems with white stem stripes. Clumps nicely and good solid climber. Lovely chunky white aroid flowers. Prefers well drained soil. Good indoors with good light. Philodendrons are tough epiphytic types, from tropical America where there is 450 species. Part shade. Sent in a 75mm pot.Priced at \$59

GUMBY GUMBY (3m)
Pittosporum phillyreoides syn.angustifolium. If you read the background to this plant you would be drinking its tea easily made from its leaves every day! Famous for the treatment of cancer & many other ailments. Testimonials are easily available. Shown scientifically to kill cancer cells & act as a stimulant for the auto-immune system. There is scientific work going on now to put a patent on the cancer killing active ingredient & its mechanism. Can be taken as a tea or in a capsule when the leaves are dried and powdered. This is a tall weeping shrub with handsome narrow foliage masses of fragrant small cream bell flowers and 2cm orange fruit. Extensive inland but very hard to get.Priced at \$14.90 each (400 Parries)

Thaumatococcus danianum

Syn. Philodendron stenolobum (1.5m) An absolutely stunning Aroid with long narrow wavy lobed leaves shaped like an arrow which can grow to 70cm long! Leaves are a medium dark green with lighter green veins. Perfect for indoor, pot feature or in the garden. Needs good drainage. Let it dry out a little between waterings. Bright indirect light. These plants are 20cm tall in a 100mm pot.Priced at \$17.90 each

PURPLE PHILIPPINE GROUND ORCHID

(40cm) **Spathoglottis plicata 'Purple'** is a spectacular ground orchid, giving you eye-catching 30mm purple/pink flowers, in spring and summer, above its attractive pleated foliage. These are fast growers and the 5cm pseudo-bulbs will multiply for you. Because of their fast growth remember to keep up their nutrient supply. Good indoors or outside. Go dormant in winter but will bounce back in spring. From moist areas of the Phillipines to India and Tonga. They grow best in light shade or morning sun and require good light to flower at their best. In 70mm pots.Priced at \$15.90 each

...Native to Gallipoli Peninsula...

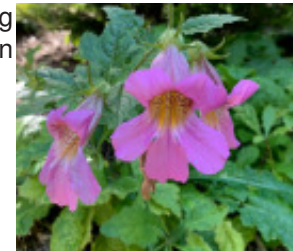

ROSEMARY BLUE LAGOON

(1.5m FABCD) **Rosmarinus officinalis 'Blue Lagoon'** will arouse your senses with this highly aromatic evergreen shrub. Unique light grey-green foliage, covered with lovely deep blue flowers over a long season, from spring through summer. Popular in herb gardens or as an informal hedge or screen. Easily pruned into topiary forms. Sprigs of rosemary are used for remembrance. Hardy and drought tolerant, requiring little care, once established. Thrives even in poor soils, provided it is well drained. Full sun. Sent in 42mm diameter tubes.....Priced at \$3.90
Particularily important for Australians for remembrance as it is found growing wild on the Gallipoli Peninsula.

CHINESE FOXGLOVE

(1.5m AbcD) **Rehmannia angulata** Pink trumpet shaped flowers with a yellow throat covered in maroon spots. Blooming from late spring til early autumn on upright stalks above the clumps of textured deep green foliage. Excellent cut flowers and great as a border plant! Evergreen and spreads rapidly in warmer climates. Deciduous in cooler climates with leaves turning red in autumn. Prefers well drained soil. Full sun to part shade. Going at tube price.

Sent in 42mm diameter tubes.Priced at \$3.90 each (150 parries)

STAR JASMINE

(1m*FABC) **Trachelospermum jasminoides.** Highly scented white star shaped flowers in spring and summer. The small oval shaped glossy leaves have an unusual standout white variegation and really standout with its pink new growth. An excellent groundcover. Takes dry conditions. Frost hardy. Evergreen. Full sun to part shade. Sent in 42mm diameter tubes.Priced at \$3.90

FLAME VINE

(VABCD) **Pyrostegia venusta (syn.ignea)** is one of the most spectacular climbers of them all-few plants flower as profusely as this one. The flowers are bright orange and tubular in terminal panicles of thirty to fifty blooms from July to October. This is an evergreen vine from Brazil, with largish attractive compound leaves. Very hardy it will grow in all areas where protected from frost. Fertilise regularly. Requires full sun. Sent in 42mm diameter tubes.Priced at \$3.90 each (150 Parries)

Thank you for your Referrals.
 We appreciate them very much.
From Bob & Bev

All 4 Water Plants for \$32

NEWSLETTER OCTOBER 2024

Spring continues beautifully and so do your new plants just bursting out with joy to join you! Its been fairly dry but a little rain to settle the dust...typical of our springs but remember there is no average weather and it always fluctuates and no two years are alike. Pretty soon you will see our New Website. Just dial in as you usually do and it will be there to easily navigate
....From Bob & Bev Chalmers

..A Smile is the beginning of Peace. ...Mother Teresa

DID YOU KNOW ?

- * In 20 years time those gigantic wind turbines will cost \$600,000 in todays money to remove and dump somewhere. There is no contingency plan for this, so who is going to pay!!! Nor has the environmental cost of the huge future turbine and solar panel graveyards been costed. This is what happens when a government turns a blind eye to the need for environmental impact statements!
- * The concept of money originated in England in about 1024 AD when the goldsmiths realised that people did not keep coming back for their gold they just left it there.
- * They wrote the words 'Or Bearer' on the receipt they handed out for gold that was stored on their premises. **For the first time** people could use this 'money receipt' to buy goods....the seller knowing the gold was being transferred to him.
- * Soon the goldsmiths realised they could issue more 'money receipts' than there was gold as never ever did everyone want all their gold in one day.
- * Today savings banks and building societies are allowed by law to lend out 33 times times
- * In other words if you deposited \$1000 with them....the bank is able to lend out an additional \$33,000 and earning interest at 8% they would get \$2,640 for the year while you would earn \$45 (4.5%) for your money !!
- * This is why the banks always have the flashest building in town (after the Local Council)

Great Artesian Basin & Lake Eyre Basin

Please consider the amazing water collection system from the Channel Country into River Systems like the Georgina, Diamantina & Cooper's Creek and the Barcoo into the Lake Ayre depression. There is cattle fattening country that rarely gets rain, watered from the northern monsoonal rain. The Lake Eyre Basin is the worlds largest internal river system! A fascinating place.

The Great Artesian Basin

Everywhere we travelled you could see high cooling tanks where water is cooled after being drawn up from bores into the Great Artesian Basin (one of the worlds largest). The average bore depth is 500m but they go down to 2000m in some places. The water temperature is 30oC in the shallower areas up to 100oC in deeper areas. Water quality is generally good but high sodium levels make it unsuitable for irrigation.

For more info on The Great Artesian Basin - www.nrm.qld.gov.au/water/gab/
For more info on Lake Ayre Basin - www.lakeeyrebasin.org.au/pages/page01.html

HOW TO GROW A RICH LIFE WITH PLANTS

TRUE LIES Last week over at Woombye we saw a blind man with a seeing eye dog at his side walk into the IGA grocery store. He walks to the middle of the store, picks up the dog by the tail, and starts swinging the dog around in circles over his head. The store manager, who has seen all this, thinks this is quite strange. So, he decides to find out what's going on. The store manager approaches the blind man swinging the dog and says, "Pardon me. May I help you with something ?

"The blind man says, "No thanks. I'm just looking around."

NEWTiny Treasures Ferns

Although small these little ferns in 55mm pots are resilient and will grow quickly for you when you pot them up to a 100mm diameter pot.

....Tiny Plants....40% Below Regular Market Prices.... POT SIZES We Introduce Tiny Plants for Tiny Prices.

Initially we propagate plants in a tiny tube (42mm or 50mm) and then grow it on in a large pot 75mm diameter across the top. The bigger pot is 4 times the volume for the roots to grow into. The larger plant is more robust and ready to plant out. The tiny plants need more nurturing.

As other outlets sell shrubs in these tiny tubes we are now doing the same but there will be a difference. Our price for many shrubs in a tiny tube will be tiny ie \$3.90!! If popular we will keep it going.

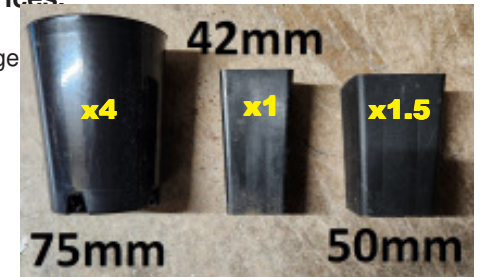

We have Changed our Genises Seed Mix

Some people found the original mix too rich because of all the concentrated Nutrients so we have added some Australian Organic Oats to increase the weight of the Product from 800gms to 1.2kg for the same price. So there is now enough for 30 days (previously 20) for men and 40 days for women (previously 20).

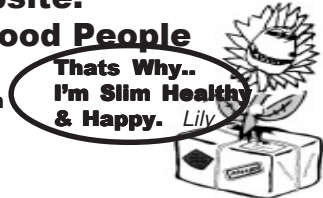

GEN 1=29 'All the Seeds in the field are Good' Genises 1:29 Many of our customers are trying this complete food. Packed with energy it also contains B-Complex...for steady nerves, Minerals for strong bones and teeth, Protein for muscle integrity, Trace Elements...for hormonal balance, Vitamins A, D, E, K....for youthful skin, Iron and Calcium for healthy blood and zinc for sexual potency! Also all essential minerals and vitamins. .

Ask for our info sheet for Nutrient Details.
Genesis Seed Mix now has its own website.
Attn Diabetics, Bad Health & Healthy Food People

www.Superfoodau.com Please have a look... you can order it here on this website or there on Superfoodau.com or Phone Bob direct on 0408 687 109.

Pots are measured by diameter across the top eg 75mm, 42mm and 50mm. Our plants are mostly in 75mm pots, 4 times bigger pot for roots than the 42mm tiny plant.

Thats Why.. I'm Slim Healthy & Happy. Lily
